WASHINGTON, June 8,-The conclusion drawn by War Department officials
concerning the condition in the Philippines given in the dispatch of General Ods
are that the insurgents are little more than marauding bands whose power will
be considerably decreased when the mon find there is life and liberty under American government.

The people are coming into the American lines asking protection, and are considered like those who someht protection in the form during the early stages of American development in the West. Nothing is yet said as to the intention of General Cris to continue active hogbilities, but this is a matter that will be left wholly in his discretion, and he will no doubt fight or rest as the circumstances

A disturbance in the Foley household attracted the attention of the neighbors last night. The house was entered by policemen, who found blood stains which led down the stairs to the basement.

There Foley was found seeminly dead, in a dark corner. There was a large bullet wound in his head, from which the blood was flowing. Another bullet

wound was found in the man's neck, just under the right jaw.
There were also three vicious looking cuts on Foley's head, which appeared

to have been inflicted with a dull ax.

The wounds had evidently been made several hours before. A surgeon applied restoratives, and Foley regained consciousness.

COLUMBUS, O., June 8.—The interest in today's session of the American Medical Association Convention centered largely in the address of Surgeon General Sternberg of the United States Army. General Sternberg was accorded close attention and was warmly applauded. The subject of his address was "Sanitary Conditions of the War."

The business session of the association today was full of interest, and considerable feeling was developed. The nominating committee made its report which was adopted after the name of Dr. Walter Wyman of the Hospital Marine Corps was added to the Judiciary Council.

The officers elected are as follows: President, Dr. W. W. Keene, Philadelphia; first vice president, Dr. C. A. Wheaten, St. Paul; second vice president, Dr. E. Ferguson, New York; third vice president, Dr. G. M. Allen, Alberts, Mo.; fourth vice president, W. E. Middleton, Davenport, In.; secretary, Dr. G. H. Simmons, Chicago: treasurer, Dr. W. G. SACRAMENTO, June 8.—W. A. Carroll, a special police officer who patrols a beat in the southeastern part of the city, was shot by a burglar about 2 o'clock this morning and seriously wounded. The bullet entered the officer's neck.

er's neck. Carroll had seen a mar enter the yard of L. Meblus, who resides at Eleventh and N streets, and at once followed him in, finding the fellow industriously at and N streets, and at once antowed him in, finding the fellow industriously at work trying to open a window. As soon as he saw the officer he ran, with Carroll in hot pursuit. The burglar was caught before he had gone a block, and the officer escorted him to a grocery at Twelfth and O streets, where he went in to telephone to the police station for the patrol wagon.

The officer had searched the man, but could not find a weapon upon him. While Carroll was telephoning the burglar shipped a pistol out of his boot and shot him. After the officer had faller the burglar snapped his revolver at him several times, but the carridges would not explode.

The officer managed to get to his feet and give chase to the would-be assassin, firing at him as he can. But the officer was then so weak from the less of blood thathe could not get the man.

The officers have a good description of the burglar and expect to capture him soon.

# The Boer President Denies Justice to the Harried Uitlanders.

Associated Press Dispatches by The Tribune's Special Leased Wire. LONDON, June 8 .- The advices received here today from South Africa em-

anating from British sources show more completely the utter failure of the re-cent conference at Bioemfontein between President Krueger and the British High Commissioner, Sir Alfred Milner.

THE SITUATION DANGEROUS.

The London afternoon papers all refer to the dangerous situation.

A dispatch from Matjes Fontein says Sir Alfred Milner's proposals included granting the Utlanders additional seats in the Rand district, and that President Krueger, under pressure, finally offered three additional seats. The British High Commissioner thereupon pointed out the inadequacy of the President's proposal, adding that he had come to the conference in the hope of being able to inform her majesty's government that the President of the Transvall government was able to afford such liberal measures of reform as would enable the Ultlanders to help themselves and relieve the government of the obligations to intervene in order to redress particular grievances. KRUEGER TRIES TO USE FRANCHISE AT A CLUB.

Throughout, it is added, President Krueger sought to use the franchise proposals as the means of obtaining a promise to settle the differences under the convention by arbitration, but the British Commissioner refused to treat the two subjects as inter-dependent, taking the ground that international reform in the Transvaal was necessary in any case in order to preserve the independence of the republic, and as regards arbitration, there were certain questions upon or the reputote, and as regards arottation, there were certain questions upon which it could not be admitted, while on other questions arbitration was possibly admissible, provided a suitable tribunal was suggested, not involving the introduction of a foreign power, which the government would never allow.

### Sons of St, George,

The elected officers of Albion Ladge were duly installed last Friday evening by D. D. G. P. Brother William Sheaff. The following is the list of officers: Past President, A. Dingle; President, F. Phillips; Vice-President, G. Fake; mes-senger, T. Fake; Trustee, A. J. Willson; Physician, O. L. Swayze; Organist, James

Senger, I. Paker, Intellete, A. J. Wilson; Physician, O. L. Swayze; Organist, James Pollitt.

Great interest was manifested in the election of the officers, which occurred on the previous Friday evening, particularly in regard to the election of physician. There is much reason for congratulation on the part of Albion Lodge, in having retained the services of Dr. Swayze, as also in the good material of its other officers.

A very pleasing feature of last Friday's meeting was the presentation to the newly-elected Worthy President, F. Philips. Before the refreshments were partaken of the witty and genial chalrman, Brother J. Lancaster, called the meeting to order, then reinforced by the Daughters of St. George of Goiden Gate Lodge, with a very appropriate speech. Then Mr. Pollitt advanced toward the chairman and rehearsed the action of the lodge regarding the approaching marriage of the newly-elected president. On the previous Friday the lodge instructed Brothers Barlow, Fake and Politt to purchase a suitable present, consisting of a beautiful tea service. The initial "P" inscribed on the articles reminded the speaker of the patroltism of Brother Phillips and his previous initial of the faithful and efficient services he had rendered which the lodge und never or forget." At this functure, Brother Barlow stepper forward and, in very well chosen words, presented the above articles to President Phillips on behalf of the committee and lodge. The recipient of this pleasant surprise briefly responded, after which refreshments and music followed.

"Years ago," said Wilbur Walker, secretary of the Merchants' Exchange, "I was a member of the Board of Trustees of the Free Library, I believe Dr. Sumuel Merritt would have left that library \$50,000 if it had not been for the fact that he claimed he was insuited by the Librarian who was then a woman. Talking about the library remembers me that it appears to me that Prof. Armes must take action to vindicate himself. It is his duty to arrest his accusers if he is not guilty of the charges made.

"I have been in the car department of the Southern Paolife Company for the past twenty years, and have just resigned today," said Harry W. Walkins of West Oakland, one of the most popular railroad men in the city. There secured a good position with the National Cur Engligment Company. Joe Thompson's patent, you know, is on the market, and a company has been formed to handle it. By the way, did you know that I am thoroughly an Oakland boy and went through the Prescott school?"

### A TRIFLE.

A kiss he took and a backward look, And her heart grew suddenly lighter; A trifle, you say, to color a day.
Yet the dull, gray morn seemed brighter For hearts are such that a tender touch May banish a look of sadness: A small, bright thing can make us sing, But a frown will check our gladness.

The caerriest ray along our way

Ah, sharp as swords cut the unkind words
That are far beyond recalling.
When a face lies 'reach a coffin lid,
And bitter tears are falling.
We fein would give the lives we live
To undo our idle scorning;
Then let us not mass the smile and kiss
When we part in the light of morning.

#### By JOHN CONRAD CHIEF OF POLICE OF ALAMEDA.

The people of Abameda are all right. We have a progressive city and a whole lot of nice people in ft. Crime is not on the increase. The average number of arrests in Alameda is about fifty although the record last month

The fact must be considered, however, that nearly all these arrests were for small misdemeanors. We have a very competent police force in Alameda and get along like a happy family. Atameda is a good town. It is a progressive town, "I have been on the police force about thirdeen years. I was with Sheriff Rodgers all the time he was Chief of Police, and I want to say that Oscar made a fine record.

In the old days when Chief Cook ruled over the Police Department the officers used to have to collect the taxes. In those days the Police Department came very near being the whole town government. As a place of residenice Allumedia cannot be locaten. Then, teo, you cannot fool the voters. At the last election I ran for Chief as an independent and heat the two regular nominees for the office. #### DETECTIVE A. SHOREY--YOUR TURN NEXT.

Detective A. Shorey has been so long on the police force of this city that a boy born on the day the sleuth first donned a blue coat and star is now almost a grandfather. The boys who, after indulging in some youthful
 pranks, used to "skip up the alicy" and give the new officer "the slip" are now ald men, but Shorey is not a whit older—or younger—than he was twenty-nine years ago. That was when he was made a special policeman. He became a regular in 1872 and a detective in 1875. In those years he has recovered thousands of dollars' worth of stolon property. Mr. Shorey is considered a very good detective in certain lines of work. He is a conscientious worker much has always done his duty in the department. The detective has thousands of friends in this city. It is sufficient to say that Mr. Shorey knows his business as a detective.

I do. I would not be here if I did not. It is very pleasant work, and I have become greatly attached to it. I would not think of giving up the position. The duties are not ardicus and the time passes pleasantly." Miss Fields' employer says that she is his main stand-by. "Miss Fields manages the store," he said, "and I always depend upor her for the monthly rent. She is a capable clerk, and I do not know how I would be able to get along without her."

Miss Fields' cuttes consist of attending to the wants of the customers and keeping the cash accounts in order. At closing time she and her employer go over the accounts together to check up the profits of the day. After that it becomes her duty to assist Mr. Merrick in finding his hat in case he has mislaid it during the busy hours of the day. out in France they are used largely in the

The neame clove is from the French clout meaning a nail. The tree is an evergreen, growing from forty to hitsy feet high, with large oblong leaves and crimson flowers at the end of small branches in clusters of from mon to twenty. The tree belongs to the same family as the guava, the pomparante and the rose apple. The cloves are at first white, then light green, and at the time of gathering bright red. Pieces of white cloth are spread under the trees at harvesting time and the branches are beaten gently with hamboo sticks until the cloves drop. They are dried in the sun, being tossed about daily until they attain the rich dark color which proclaims then ready for shipment.

A clove tree begins to bear at the age of about ten years, and continues until it reaches the age of seventy-five years. There are two crops a year, one in June and the other in December. Hot weather is favorable to the crop, altogether a little fog is said to improve the flavor.—New York Irees.

Fogg of 770 Thirteenth street and that he had been sewering into a private sewer in the alley behind Thirteenth street and between West and Brush streets. He was going to cuarge his house and build on an adjoining lot. He could no longer use the private sewer with safety. He desired to have a sawer built on Thirteenth street between West and Brush streets wern though the building of that sewer compelled his neighbors to go down into their pockets to pay for their share of the conduit.

conduit. mas Morris said that he protested block only.

Santtury Inspector Smith said he favored building a sewer in the streat. Pour years ago the Council passed an ordinance against back-lot sowering, because, when one of those sowers got stopped, the man using it would want to go into his neighbers lot to clear away the obstruction when he would be mer by the owner of the lot who would object to having his lot torn up.

Mr. Cuvellier said that the back-lot sewer was a poor igstitution and it was

nis neighbors lot to char away the obstruction when he would be met by the owner of the lot who would object to having his lot torn up.

Mr. Cuveller said that the back-lot sewer was a poer institution and it was time that an intelligent and practical system of sewering the city was decided upon. He wanted to know why a sewer could not be run the entire distance on Thirteenth street, from Clay to Market streets, either in the middle or on the side of the street.

The protest was overruled and it was recommended that the block on Thirteenth street, between Brush and West should be sewered.

The potition of John Greaney for a sidewalk on Center street, between Twenty-first and Lydia street, was laid over. The petition of J. P. Berkett for a sawer on Tweifth street, between Oak and Malison streets, was recommended, the time in which to do the work being limited to 20 days.

The petition of the North Oakland improvement Club for a sidewalk on B street was referred to the Board of Public Works. The walk was not bed condition and the clerk stated that it would be impossible to get bliss on the work from contractors.

Mayor Snow said that the walk was in a bad condition, but that that was largely the fault of the city which had laid the walk on sand.

The protest of Mrs. Brelling against the remacadumization of Chester street, between Seventh and Ninth streets was filled.

The protest of Flore B MocDermott against the macadamizing of Center street between Seventh and Eighth Firects was denied.

The petition of F. Gill for a sidewalk on Filbert street, between Twenty-sixth and Twenty-sixth and Twenty-sixth that streets, was granted.

The petition of S. E. Wicker to establish a grade on Grove street in the annexed district was laid over until the matter of grading the annexed district shall be taken up.

lighting the city for the next year was read.

J. A. Britton said that the cost of highling the city under the proposits would be about len per cent tower than they were last year and, under them perhaps, so additional lamps could be per un and the increased number would cost no more than the lamps of last year cost. In San Diers, the cost per lamp per hour was 715 cents, la Stockton 5 cents, Sacramento 42, cents, In Stockton 5 cents, Sacramento 42, cents, San Jose, 43, cents and Los. Angeles 3 cents. The rate in the last city was as low as it was because of competition and of water power. The home company was now selling gas at \$1.25 per 1,000 cubic feet and that was the lowest rate in which gas was below soid west of the Rockles, in the meantime, the company had expended \$20,000 in the plant to enable the lighting of the coptane.

The Public Improvement Committee taid over until the next itseal year, the proposal to send 500 return pastal cards to taxpayers in each ward of their views as regards the disposition of the City Hall and other public questions. The recommendations.

Bryder to make alterations to a building at 1983 Frankin street, he referred to the Fire Warden to report at the next meeting.

The same disposition was made of the request of Gould & Sons to rulse a roof at 53 Washinston street.

A communication was read from the Goden Gate Improvement Club asking for a steam fire engine in that soction.

Mr. Cavellier said that he had visit if the corporation yard in San Francisco and had there seen small hose wagons to which the Fire Department attached small ladders. He thought that a wasion of that kind would serve the purpose of a hose wagon and a hook and a ladder truck. There were few buildings in the annexed district of more than two stories in height.

Mayor Snow said that the Fire Commissioners would have some suggestions to stern that subject in the annual estimates. It would be useless to think of sending a steam fire engine there because it could not be hauled through that territory in winter.

Mr. Cuvellier said that the people out there seemed to prefer a steam fire engine to a chemical.

Mayor Snow said that the people out there indeed of chemical continos by the chemicals which were sent out to these there from this city, reaching there when the flames had gotten beyond control. If a chemical were to be employed and to be on the ground spon after the fire strict if would have the same effect as a bucket of water upon a lichted match. It would extinguish the numediative.

Mayor Snow asked Mr. Cuvellier about the pipe service in the nuesed district. Mr. Cuvellier said that he had seen Mr. Watkinson of the Water Commany was making to secure four-in-happe. The demand for that pine was so great that to could not be minufactured in the Rast. However, as soon as the pipe was available, it would be laid and the serv-

# Yosemite = Valley

This Wonderful Creation of Nature Is Now at Its Best

Just what that means, however, the ablest writers and the most taiented artists have been abuble to tell us. They have written volumes and have painted the very beavens to their eriors to do the subject justice, but in despair have finally exclaimed.

**CO AND SEE FOR YOURSELF** 

Now that's good advice. You will find thore a narrow crocked chash seven inles long, with rugged buttle-neuted walts 10 sines higher than the highest building. You will find water-falls leaping from vertical cliffs 15 times higher than hingara. You will see mountain parks studded with every variety of forest tree and flowering string. You will see thindering torrents, rearing cataracts, beautiful lakes, inspiritus kies, britischt raibows, a wealth of feris and plant beauty, and all the birds of the air bursting their very throats in song for the pure essence of living.

The Trip Has No Hardships

You go in a luxurions sleeping-car to with in 05 miles of the Valley, and the remainder of the way in comfortable coaches over a fine turnplice.

Hotel rates in the Valley are from \$2.50 to the way the other parts of the production of the coaches for the said of the coaches and the coaches for the said of the \$4.00 per day and the charges for guides and saddle animus vary from \$1.00 for a trip on the floor of the Valley. Os \$1.00 for an all day tripup the cillicuit rails.

The side trip to the famous

Mariposa Big Trees

is \$2.00, and should always be included. M. E. DeCora, (Seventh, near Broadway,) Southern Pacific Agent, will tell you all about Ticket Rates and Train Movements. He will also give you a folder containing other informa, tion about Yosemile.

#### QUIET WEDDING AT SAN RAFAEL.

A quiet wedding took place in San Rafael on Thursday, June 1st, when Miss Priscilla Waters and Hiram Blanchard were united in marriage. Only the immediate relatives of the young couple witnessed the ceremony. The bride is a young lady well and favorably known in this city, where she has resulted for many years. She is connected with the Oakland office of the Cascade Laundry. A quiet wedding took place in San Ra-
